Task	Literacy	Maths	Number	Phonics
	<p><u>Note to adults – the children need to use their own phonic knowledge to write each word. It does not matter if it is incorrectly spelt.</u></p>	<p>3D Shape</p>		
1	<p>We are going to look at birds this week. Visit the RSPB website. https://www.rspb.org.uk/fun-and-learning/ https://www.rspb.org.uk/birds-and-wildlife/wildlife-guides/identify-a-bird/#Bird%20identifier</p> <p>Explore outside to see if you can find any that have been left behind by a bird. How many can you find?</p> <ul style="list-style-type: none"> Using the feather as a pen, write your name and take a photo. You could write in sand, mud, flour, ink or paint. 	<p>We are going to learn about 3D shapes. 3D shapes are fat not flat. Watch the clip: https://www.youtube.com/watch?v=A42KBXGS_AUM Complete the 3D task on page 7.</p> 	<p>Number</p> <p>Can you say the number that is before it, one more than, one less than? Can you count objects to this numbers? Can you write this number? Can you share out this number of objects between 2 people equally? Is there any left over?</p> <p>What two numbers when added together make 16 and how many can you think of? Can you write them down in a number sentence?</p>	<p>Phonics Recap</p> <p>Use the www.phonicsplay.co.uk website to investigate these sounds along with words around you and in books – also use the 'you tube' clips to help and the websites.</p>
2	<ul style="list-style-type: none"> Using a bird watching template, see how many birds you can spot. Use the RSPB website to identify the birds in your garden. Write a list of all the different birds you spotted. https://www.bbc.co.uk/cbeebies/joinin/garden-bird-spotting <p>Use the link below to find lots of bird spotting sheets. https://www.wildlifewatch.org.uk/spotting-sheets</p> <p>Challenge</p>	<p>Watch the clip: https://www.youtube.com/watch?v=qEmN--EiotU</p> <p>Go on a 3D shape scavenger hunt. Use the template on pages 8, 9 & 11.</p>	<p>16</p>	<p>Phase 4 sounds</p> <p>(these involve sounds that you have learnt so far and blending them with another to make a new sound)</p>

NB Please revisit the ideas from previous week's as it is good to repeat them so that your child has a deeper understanding

Please don't feel that you have to print off the templates. They are just there to help you and give you some ideas if you need them. You can just do the work on plain or lined paper.

3D SHAPES SCAVENGER HUNT

- Find a cube that is used to play a game.
- Name a rectangular prism that a fish lives in.
- Find a sphere you can bounce.
- Name a cone you can wear on your head.
- Find a cylinder in your kitchen.
- Name a cone that you eat ice cream in.
- Find something that holds what you blow your nose with that is a rectangular prism.
- Name a colorful game that is a cube.
- Find something in a cylinder you can drink.
- Name a piece of candy that is a sphere.
- Find a cube that is cardboard.
- Name a birthday treat that is a triangular prism.

SLIDES AND LADDERS

Soft Straps

Directions: Build a die. Move your marker that many spaces from the start. If you are correct, you can stop. If you are not correct, move back. If you end on a ladder, climb up. If you land on a slide, slide down. The first one to the end is the winner!

START				

The board features three colored paths: a green ladder path (24 to 28), a yellow slide path (20 to 25), and a pink slide path (23 to 28). The paths are labeled with numbers indicating the direction of movement: 'up' for ladders and 'down' for slides.
