

Blue Class

Autumn B

Blue Class stepped outside the classroom and went on a walk around the village to find human and physical features of our local area. This was part of our current Geography topic. The children thoroughly enjoyed going for a walk around the village and were excited to point out the different features they recognised. We took some time to admire the war memorial too as Remembrance Day was fast approaching..

We took part in some Diwali dance workshops, combining PE and RE in a fun activity session. First we learnt the story of Rama and Sita, using actions to represent the different character names. Then we learnt some dance moves to help retell the story through movement. The children enjoyed learning the moves and performing as a class. They really worked together well as a team!

Blue Class enjoyed their first session in the forest. As it was also Children in Need on this day, we started by making a Pudsey face using the yellow leaves from the forest floor. The children then enjoyed choosing from a range of activities including bug hunting, making chalk paints, threading leaves to make a leaf wreath, and making hedgehogs out of wood and clay. The children also learnt how to make bug snugs using the natural resources of the forest area.
