

Green Class

Autumn B

Green class' big event was our trip to the Anglo-Saxon Village at West Stow which took place on a chilly Monday in December.

First, we explored the village of experimentally reconstructed houses and listened to the story of Beowulf as we sat round the open fire in the Great Hall.

We spent the afternoon in the museum handling some of the artefacts and trying out Anglo-Saxon fashions.

We have had two Fridays in the woodland area and enjoyed having our parents in to join us for the second of the two sessions.

Amongst the trees, we have hunted for wildlife, made bows and arrows, built dens and even prepared a slightly dubious Christmas dinner in the mud kitchen.

Linked to R.E., we had a visit from a dance teacher who helped us to interpret the story behind the festival of Diwali through dance.

Our History Day celebrated 100 years of Disney. We looked at how animation has changed with technology, but also spotted that many approaches were really very similar when you looked at what actually was happening.

To explore changing states in Science, we got out on the playground and used the space as molecules, thinking about energy levels and the effect of temperature. We were particularly enthusiastic as a gas...!
