

Our Fourth Woodland Session

This week was a COLD session in our woodland area and we had Rainbow and Yellow class enjoying the space. We also had the privilege of parents coming to play and observe our children using this amazing space. Mrs Munday also joined us and enjoyed participating in many of the activities.

Just some of their activities included:

- Writing signs using mud and water
- Bug hunting
- Leaf stamping
- Digging for LOTS of worms
- Creating art by hammering nails into logs and using elastic bands to create patterns and some Christmas trees
- Lots of mud kitchen exploration, making bubbles and using bicarbonate of soda and food colouring to make reactions (A whole café was created by our Year 6's called Ye Olde Café).
- Making natural tree mobiles with leaves, garden wire and twigs and sticks
- Hammering huge logs into the ground to make walls
- Making dens
- Making slides with large pieces of wood
- Tree climbing

"I didn't realise my child still loves imaginative play" - Parent

"I've never used a mud kitchen before. I LOVED it!" - Year 6 child.
