Homework Policy

This policy was approved

March 2024

This policy should be reviewed annually

“Together unlocking the potential of every child; inspiring children and changing lives”

Homework Policy 2023 - 2024

Homework makes an important contribution to raising standards and developing pupils' study skills. Teachers' effective use of homework should be integral to evaluating the quality of teaching and pupils' learning.

Homework should be handed out and due in at specified, regular times during the week. Homework is expected to be carried out by every child. Occasionally, children may be asked to complete overdue homework during a break/lunch time.

Homework tasks should be marked/acknowledged regularly by a member of staff. Homework tasks should be kept on record, e.g. homework books or folders.

The time recommendations for homework are a guidance time. Once the time limit is reached, children either carry on with their activity, or ask a parent to sign off time spent.

There is no expectation of regular or weekly tests, however, they may be used to reinforce or assess facts, e.g. in spelling or multiplication.

Research and open-ended tasks may be set in place of the homework schedule.

Recommended Homework Schedule

Reception

Daily Reading

Optional homework activity

Year 1

10 mins Maths

10 mins English (e.g. comprehension) or topic

Spelling activity

Daily Reading

Year 2

10 mins Maths

10 mins English (e.g. comprehension) or topic

Spelling activity

Multiplication tables activity when appropriate
