The Chair welcomes the committee. A recap of the events that we have provided throughout the previous year. The school has approached the BFG to ask if we can raise funds to provide at least 15 new Ipads. We have discussed the possibility of working towards this with the support from school staff. We have also discussed the need to push the BFG's and what we provide for the school, as many parents still believe the school provides discos, hoodies, book bags etc.

Changes to the constitution:

Due to the small number of current volunteers, we are proposing a change to the criteria for committee membership to help us retain experienced members.

Our current constitution requires a committee member to resign once their direct link to the school is removed. The new change will allow the remaining committee members to vote on whether to retain the departing member, provided the individual wishes to continue supporting the BFG.

AGM

All elected committee members resigned from their roles and we thank them for their hard work and support for the past year.

Elected committee results are:
