

Hot Weather and Cool Creativity

What a fun week it's been! With temperatures soaring at the start of the week, we made a few thoughtful changes to our usual routines to help everyone stay cool and comfortable.

Our Creative Station quickly became the place to be! It was wonderful to see so many children creating beautiful pieces of jewellery. The imagination and attention to detail were truly impressive!

This week's "Amazing Play" was selected by Miss Baxter, who spotted a lovely moment of calm during the day. One child took some quiet time in the shade with a book, showing us all that sometimes the best way to enjoy a hot day is with a good story and a bit of peace. A fantastic choice — and a great reminder to slow down and stay cool.
